Cold Screen

4H Hardness, Moisture-Proof, Wipeable

1200 Nits High Brightness

High Contrast Ratio

Long Term Black Uniformity

Crystal Clear & Smooth Image

Flip Chip Mini LED

Patented 3-In-1 Board

## Features & Details

This LED display solution offers pixel pitches of P0.93, P1.25, and P1.56, with 1000nit brightness and an ultra-smooth 7680Hz refresh rate. It guarantees flawless, flicker-free visuals—ideal for high-speed filming and dynamic virtual production. Built on advanced flip chip mini LED and patented 3-in-1 board technology, it provides long-term black uniformity, matte surface finish, high contrast, and low power consumption. The larger 300×168.75mm module ensures seamless visual integration for premium AV environments.
