Features & Details

The Glow Panel Series is a high-brightness semi-outdoor LED display designed for commercial store fronts and windows. With a sharp 1.25mm pixel pitch and 3000nit brightness, it delivers vivid, impactful visuals in daylight conditions. Perfect for retail and promotional use, this display ensures excellent visibility and color vibrancy for dynamic content. Its design supports multiple commercial applications, offering a reliable and eye-catching solution for high-traffic environments.
